Floor Plans From Only £25

Agent Offer

As part of Surveyours Ltd continuing commitment to carbon reduction and energy efficiency we will offer a **FREE EPC** to all Estate & Letting Agents when the new or existing owner installs an energy efficiency measure highlighted on the EPC

Landlord Offer

In April 2018 Non-Domestic Properties will be required to achieve a minimum standard of Energy Efficiency. This will also apply to rental property.

Landlords can take advantage of a range of funding and initiatives now to prepare for the change in regulation, usually with little or no contribution.

Surveyours Ltd are experts in managing the seamless installation of multiple measures financed through a combination of the Governments ECO and Green Deal Initiatives, further incentivised with 'Cash Back' and Micro Power & Heat Generation annual Income payments.

improving energy
efficiency makes sense
for landlords and tenants
